

# Hosta Clumps 2012

Several varieties of hostas are available in larger clump sizes. These clumps are 3-5 years old and provide instant maturity. The varieties available will vary from year to year as our supply of field grown stock of any given variety rises or is depleted. Clumps are not available to purchase online. Call or visit the nursery for availability of any given variety. Clumps can be shipped for \$12.00/clump.

## General Hosta Information:

**Size:** After the name of each hosta, we have listed the size of the plant, based upon the approximate **diameter** of the plant at maturity. Although some hostas grow more upright than others, height will generally correspond to diameter (i.e., the larger the diameter, the taller the plant).

**Diameter** of mature plant:

[D] = Dwarf, up to 6"                      [S] = Small, 8"-16"                      [MS] = Medium-Small, 18"-24"                      [M] = Medium, 26"-36"  
 [ML] = Medium-Large, 36"-40"                      [L] = Large, 40"-48"                      [XL] = Extra-Large, over 48"

**Flower Color:** After the description of each hosta, we have listed the color of the flower:

(L) = Lavender                      (P) = Purple                      (W) = White                      (NW) = Near white                      (B) = Blue

<b>ABBA DABBA DO--CLUMP</b> [L] a green-centered form of 'Sun Power'; a fine large specimen clump (L) -----	35.00
