SPIDER AND UNUSUAL FORM DAYLILIES

Spider daylilies are flowers whose petal length is four times the petal's width or more, for a ratio of 4:1 or greater. Unusual forms make up a class of daylilies consisting of 3 types of flowers, based on petal and sepal shapes. Crispates include flowers with pinched, twisted/curled, or quilled segments. Cascades include flowers with pronounced curling or cascading of the petals and sepals. Spatulates include flower segments that are markedly wider at the end. Unusual forms often combine more than one feature.

YOUR EMBRACE (Ellison 2001) ML 26 inches D deep pink-----	10.00

BAREROOT DAYLILIES

Daylily orders can be placed in any of the following ways:

1. Most of our customers come and walk through our field during bloom season (generally the first three weeks in July), pick out the varieties they like, and place their orders here.
2. We are now offering online ordering. **Not all of our varieties are available online due to limited quantities. You may check availability by contacting us by phone or email.**
3. We also take orders by phone or fax.

We take orders from February 1 through August 31. Customers can elect to come back and pick up their orders on a certain date, or have us mail the orders to them. We only dig orders between April 1 through May 15, and August 1 through September 10.

POTTED DAYLILIES

Each spring we dig and pot up around 40 of our best selling varieties. These can be purchased at our nursery and planted at any time during the growing season.

DAYLILY CLUMPS

More and more customers are electing to buy their daylilies in clumps. We don't dig our bareroot orders during the bloom season because we don't want to divide clumps (and disturb the bloom) at that time. However, if you want the whole clump, we will dig it right there on the spot, drop it in a plastic bag, and send you on your way with a mature clump. Prices vary (generally between \$15.00 and \$50.00) depending on the variety and the number of divisions in the clump. Clumps are not offered online, but they can be shipped. Call or email to check for availability and prices of any certain variety. Shipping is \$12.00 per clump.

SHIPPING INFORMATION

Daylilies are shipped bareroot April 1 though May 15, and August 1 through September 10, weather permitting. We ship US Postal Service Priority Mail only; shipping only on Mondays and Tuesdays allowing plants to arrive before the weekend. Shipping costs are \$10 for the first 5 plants and .50 for each additional plant.
